International standards

01.

ISO 9001 is a globally accepted model for a quality management system that aims to increase customer satisfaction by meeting customer expectations, needs and legal requirements.

02.

ISO 27001 Information Security Management System is an international framework that helps companies protect their financial data, intellectual property, and sensitive customer information. With ISO 27001, companies can identify the risks they face and manage or reduce the risks associated with their confidential information.

03.

It is a document that grants its owner, after registering the trademark, the sole right to use it, and in this sense, the right to benefit from it economically. Likewise, the trademark document grants the right holder the right to prevent others from using similar trademarks that are identical or indistinguishable.

04. **Chamber of Commerce and Industry**

Chambers of Commerce and Industry are professional organizations with the nature of public institutions with legal personality (Article 4 of the Union of Turkish Chambers and Commodity Exchanges and the Law on Chambers and Commodity Exchanges No. 5174).

Why Mahran Group?

Compatibility

Our company has ensured that when they change jobs, they can commit to a new role or area of responsibility and stay up to date with the latest trends in their job performance or industry.

proactive approach

As companies start to grow faster, they need a proactive approach. This means companies need fewer employees and a focus on leadership to be flexible. This means employees who are proactive enough to come up with ideas and flexible enough to accept feedback from the team, even if it's negative.

Understanding customers

Businesses Thanks to digital technologies, consumers today have unprecedented access to information. At the same time, they are looking for fast, consistent, and personalized service. As a result, more and more companies are using human-centered design to ensure that the customer is at the center of their business processes, products, and services.
